		4.5	Demonstrate the correct use of approved adrenaline autoinjectors

Assessment methods

Candidates are assessed for this qualification using the following methods:

- Multiple-choice question paper
- Practical observation

Multiple-Choice Question paper

Each candidate will be assessed for this qualification by the completion of a multiple-choice question paper.

Candidates will be required to score a minimum of 70% correct answers to achieve a pass.

Practical observation

Candidates are required to demonstrate capabilities as a first aider as they would in an emergency situation, therefore, candidates will need to be able to work on the floor; for example, as with CPR.

Reasonable adjustments

All candidates are required to complete the assessment criteria in a manner appropriate to the purpose of the qualification.

The prescribed assessment methods for this qualification should not unfairly disadvantage candidates, who would otherwise be able to demonstrate competence in the assessment criteria and in line with the purpose of the qualification.

If you feel the assessment methods above would disadvantage you please contact your centre to discuss reasonable adjustment.
