

Assessing Display Screen Equipment

This course fulfils your statutory training obligations and covers the correct way to set up and use your display screen equipment safely. The first thing that comes to mind is a computer monitor, although its not the only thing it refers to. Display screen equipment applies to various visual monitors such as laptops, tablet PCs, televisions, smartphones, CNC control pads, portable diagnostic screens or equipment containing cathode ray tubes.

- Accredited by RoSPA (**Royal Society for the Prevention of Accidents**)
- Fully online course and assessment with no time constraints
- Full audio voiceover and high quality download
- Approximate duration: 110 minutes
- Accredited system generated certificate received on successful completion

Course content - 15 short modules covering:
